

## Webinar Wednesdays Subscription

Based on feedback from our members, the KAC is introducing a new subscription program for a monthly webinar. This will allow us to provide you with pertinent information on a variety of topics on a regular basis. This program gives every member county the opportunity to participate in training from their office, making it cost effective to provide training to all of your employees.

Participating in the KAC's webinar program provides one "seat" to the webinar. A seat is a log-in. Your county will be allowed to connect one computer to the webinar session. You can have as many people as you want present to watch the webinar from your one location. You will be asked to include an email address for the webinars. This email will be the assumed email address used for your county's seat connection and for contact information.

## Why Webinars?

*Webinars — or online, real-time presentations — have obvious benefits to our members. Here are just a few reasons you should consider subscribing to the KAC Webinar Wednesdays:*

- **Less Costly than Attending a Seminar**  
Webinars give you many of the rewards of an in-person seminar without the hefty price tag. You can get a brief overview of a subject without having to pay for gas and in some cases, overnight stays, to travel to a class. The \$50 annual subscription allows ALL of your employees to participate in ALL of the webinars at one central location convenient to your county.
- **Less Time Required**  
Webinars are designed to take no more than an hour of your time. You don't have to be away from work for a full day, but you still gain important information.
- **Interact With the Presenter in Real-time**  
Webinars allow you to interact in real-time with the presenter so you can ask specific questions even though you aren't face-to-face.
- **Invite Your Employees to Interact.** When you set up a training or meeting room for employees to come together for the webinar, it will naturally lend itself to conversation on the topic, reinforcing the message.
- **Strategic Content That Continues to Generate Value**  
An archived video of our webinar allows others in your office interested in the topic to listen to the presentation at their convenience.
